To The FCC:

My name is Lynda Swanson and I want to comment on the proposed changes to regulations that would adversely affect any and all Christian Radio stations. First of all it would be a travesty and totally against what we as American citizens know to be true. The Christian stations that our entire family listens to have had a wonderful affect on our family as well as many others. They have brought gang members out of that life, given hope to us as parents for the future of our children and grand babies, and totally turned around the life of drugs. If it were not for the positive messages preached from the pulpit of Christian radio I would not be free from Meth today! PLEASE... We do not need or want a Community Advisory Board hovering over shoulders trying to bring "their own" opinion to the forefront. Clearly nearly all of the listeners to Christian radio stations are believers in Christ and His Word. We love the positive message that is always broadcasted from these stations. Our children don't listen to trash radio stations and therefore bring forth healthy behavior due to this. Our area as well the entire world actually, needs to hear the message of salvation through Christ Jesus unedited. We do not want unbelievers of any kind attempting to stop, edit or attempt to change what our KLOVE and others are doing. They are sending out a message through songs and talk. Our stations are not merely for music either. They are a Church...a pulpit where the Gospel is preached and therefore not under regulation by government as far as what is said and done. Those who do not share our beliefs need to mind their own business and stop wasting time in life for crazy crap like this. Always have their noses where they don't belong!

Secondly, the requirements for additional staffing would be placing a hardship on the Christian stations and stop some of the positive messages from going forth. Come on you guys...get a grip please.

Our translator stations need to stay intact as well. Our Country needs these positive messages without someone else's opinion and opposition., If anyone doesn't like what we are all about then clearly they need not listen.

Perhaps if you want to mess with radio stations you should take a look at 92.3 FM here in Omaha, NE. I will quote from one song I heard on this station when with a friend...she has a Cadillac pussy...bitch you need to suck it...now give me a break...and you want to change regulations on Christian stations? That music leads to rape, murder, and anything else that is flat crap! Do you want your kids out there murdering or your little girl raped by some idiot that hears from those songs that it's ok? I didn't think so. Leave Christian radio as it is and move on to a time worthy effort to better our Country instead of hindering the positive message being sent forth in Christian radio. LET FREEDOM RING!
